

S'More FAQs

What do campers need to bring?

Swim suit, towel, goggles (if desired), lunch, a water bottle and a smile!

Are swim or tennis lessons included?

Yes! Campers will be offered a daily swim and tennis lesson as part of their Camp S'More experience.

What do you do on a rainy day?

We have indoor inclement weather space in the event of thunderstorms. However, we believe getting muddy can be a fun experience so, please, send your camper with rain coats and boots. We will follow our regular daily routine when possible.

S'More Fun

We pledge that your child will come home from camp each day exhausted, dirty, and full of silly stories that might not make any sense to you... yet make you smile and feel assured that your child has had an amazing experience.

Each session campers will experience roasting marshmallows over a mini campfire and have fun building and creating their own S'More Treat. Ooey, Gooney & oh so Good!

This camp must comply with regulations of the Massachusetts Department of Public Health and be licensed by the local Board of Health.

Kids Need Camp

It is at camp where kids learn what it means to experience pure joy in the "little things"... to feel gratitude towards experiences you, as a parent, could never put a price tag on.

We believe that the summer camp experience is the greatest gift you can give your child - independence, self-confidence, friendships and curiosity. At Camp S'More campers will make new friends, in a variety of fun activities and learn new skills. Camp is where children can truly be themselves and be accepted for who they are.

Our Staff

Our 5 to 1 camper to staff ratio provides you peace of mind knowing your children are always supervised. Staff are carefully chosen for their leadership, creativity and enthusiasm for working with children.

All counselors have received background checks and are certified in basic First Aid and CPR.

S'More Activities

Activities are designed to ensure campers have fun, make friends, build confidence and learn new skills.

Red Ball Tennis: Real tennis, reimagined and designed specifically for kids. Red ball is played on small courts with short rackets and soft balls. Red ball is easy to learn and kids will be rallying in just a few lessons. Taught by certified tennis professionals.

Progressive Swim Instruction: We believe every child should have fun, feel comfortable and be safe in the water. Certified swim instructors will incorporate interactive games to improve water confidence and encourage swim stroke development.
